RECUPERO

SCOMPORRE IN FATTORI PRIMI

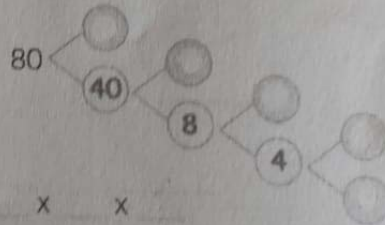

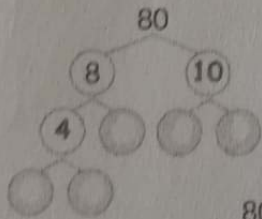

Tutti i numeri composti possono essere scomposti in fattori primi (i numeri vedi nei cerchietti colorati) ed essere rappresentati con una moltiplicazione tra numeri primi

■ Scomponi i numeri, colora i fattori primi e scrivi le moltiplicazioni.

■ Scomponi il numero 80 in due modi diversi: colora i fattori primi e completa.

$80 = \dots \times \dots \times \dots \times \dots$

- in qualunque modo si comincia a scomporre un numero si ottengono sempre gli stessi

numeri primi
